INTRODUCTION

ABOUT US

Established in 2008, TRG is a multi-sector solution provider serving residentials, apartments, government, media, telcos, and enterprises. It offers a wide range of services across Telco & IT, property, infrastructure, and digital platforms—including CDN, VSAT, SaaS, AI, and cyber security. Backed by robust infrastructure such as fiber optics, satellite networks, data centers, and towers, TRG supports digital transformation and connectivity across key industries in Indonesia.
